

PROFILE COMPANY 2024

شركة هندسة المنار للمقاولات والتجارة العامة وتجهيز
المواد الأولية الكيماوية والصناعية محدودة المسؤولية
Al Manar Engineering Co. For General Contracting,
General Trading and Supplying Chemical & Industrial
Raw Materials Ltd

who are we ?

Al-Manar Company was established in 2011 in the city of Basra, southern Iraq, as a leading national company in the field of general contracting. The company aims to serve state departments, companies, and scientific institutions concerned in the field of industry and the electricity and oil sectors.

Extensive experience and distinguished services:

Al-Manar Company has extensive experience in the field of general contracting, and provides a wide range of services including:

Supplying the best systems and equipment with advanced technologies at competitive prices.

Providing spare parts, training and maintenance for several years.

Supplying all kinds of high quality chemicals and industrial gases.

Implementing complex industrial projects efficiently and effectively.

Providing specialized engineering and technical consulting services

Our commitment to quality and safety:

Al-Manar Company is committed to the highest standards of quality and safety, and has obtained the ISO certificate (14001:2015) in the environmental protection system and the ISO certificate (9001:2015) in the quality policy.

Our vision:

At Al-Manar Company, we seek to be the leading company in the field of general contracting and supply of chemicals and industrial gases in Iraq and the Arab region, by providing distinguished services that meet the needs of our customers with the highest standards of quality and safety.

Our message:

We at Al-Manar Company are committed to improving the level of services provided in the field of general contracting and supplying chemicals and industrial gases, by relying on the latest international technologies and expertise, adhering to the highest standards of quality and safety, and achieving sustainable development for society.

Our goals:

Enhancing the efficiency and effectiveness of operational processes to ensure the best results.

Expanding the customer base and reaching new markets locally and globally.

Attracting the best talents and human cadres and developing their skills continuously.

Investing in research and development to provide innovative services that meet market needs.

Contributing to the economic and social development of the community by supporting local projects.

Our focus on industrial chemicals and gases:

Al-Manar Company pays special attention to providing high-quality chemicals and industrial gases, through cooperation with major international companies in this field.

The company offers a wide range of chemicals and industrial gases including:

Water treatment chemicals.

Chemicals for oil and gas processing.

Chemicals for the petrochemical industries.

Technical consulting services:

Al-Manar also provides specialized technical consulting services in the field of using chemicals and industrial gases, in order to help its customers choose the appropriate materials for their needs and achieve the best results.

Our distinguished team:

Al-Manar Company includes a team of experienced and competent employees in various fields, including:

Mechanical engineers.

Chemists.

IT technicians.

Storekeeper.

Forklift operator.

Mechanics.

Security guards.

Public service workers

Al-Manar Company is interested in chemicals and industrial gases for several main reasons:

1. Increasing demand:

Iraq is a country rich in natural resources, such as oil and gas, which creates an increasing demand for chemicals and industrial gases used to extract and process these resources.

2. Industrial diversification:

The Iraqi government seeks to diversify its economy by supporting various industries, such as petrochemical, food, and pharmaceutical industries. These industries require large quantities of chemicals and industrial gases.

3. Accumulated experience:

Al Manar Company has extensive experience in the field of general contracting, including the implementation of complex projects in the oil, gas and petrochemical sectors.

4. Cooperation with major international companies:

Al-Manar Company cooperates with major international companies in the field of chemicals and industrial gases, ensuring that it obtains the latest technologies and high-quality products.

5. Its commitment to providing distinguished services:

Al-Manar Company is committed to providing distinguished services to its customers, by providing high-quality chemicals and industrial gases, technical advisory services, and training in the use of these materials and gases.

6. Investing in research and development:

Al Manar Company invests in research and development to provide innovative services that meet changing market needs.

7. Contribution to economic and social development:

Al-Manar Company seeks to contribute to the economic and social development of the community by supporting local projects, providing job opportunities, and developing the skills of human resources.

8. Its commitment to the environment:

Al-Manar Company is committed to the highest standards of environmental safety, and uses best practices to protect the environment from the dangers of chemicals and industrial gases.

Company profile

Our Company greets you...

First : our company is national company aims to serve state departments and its companies , the concerned scientific institutions in the field of industry ,electricity oil sectors providing with best systems and equipment of highly advanced technologies with competitive price with supplying spare parts and training in the country of origin and maintenance for several years and also supplying all types of chemicals are entered in water desalinating station and oil sectors by competitive prices .

Second : Our company has the ISO (14001:2015) Certificate in Environmental Protection System and ISO (9001:2015) Certificate in Quality Policy

Third : Our company deals with the South Refineries Company, the South Oil Company, the General Company for Petrochemical Industries, the Dhakkar Refineries Company, the General Directorate of Electricity Production in Hartha, as well as in Nasiriyah and the fertilizer industries in the southern region. And some foreign companies operating in the oil sector are Anti-Oil Company, Hellerton Company and Lukoil Company. The above-mentioned companies have been equipped with various chemicals and oils at reasonable prices.

Fourth : Our company has the eligibility to execute very. Expensive projects and ready to provide warranties and performance bonds for any projects in foreign currency's for international accredited banks.

Works were implemented by the company

- 1 - Reconstruction labs .of al Sadr teaching Hospital .
- 2 - Replacement water tank with galvanized steel tank its capacity is 30 cubic meters in favor of Hartha power station
- 3 - Supplying and making plastic floor for first control room in favor of Hartha power station .
- 4 - Erection different trusses in favor of Directorate General of Electrical Energy production.
- 5 - Excavation and pipelining works of different sizes in favor of south refineries

List of materials are imported by our company

Sr.	Material	Sr.	Material
01	Caustic soda	23	Bleacher
02	Soda Carbonate (Soda Ash)	24	Potassium Carbonate
03	Sodium Hypochlorite	25	Sodium Carbonate

Objectives of Al-Manar Engineering Company for Contracting and General Trade

- Providing the management structure, staff, financial and human resources necessary to maintain it

Improving the quality of our services as well as minimizing the potential negative impacts of our operations on

Environmental safety and human health.

- Provide education and training to all our staff, and enhance awareness of quality assurance and

Environmental protection and human health safety, contract manager and site managers, Supervisors and workers are responsible for their own performance.

- Maintain an integrated approach to quality, from start to customer inquiry and through to

completion. Providing specialized, high quality oilfield equipment and services to the oil and gas industry Not only to meet customer requirements but to exceed them.

- Comply with applicable HSEQ regulations and all legal requirements and, where possible, comply with internationally accepted "best practices" and standards.

- To develop and implement effective health, safety, environment and quality management programs with 1 Specific goals and objectives to improve the proactive control of risk, and to create

incremental change in behaviour. - Prevent pollution and continually improve our environmental performance through proven application

Economically sound technologies.

Promote safe work practices and maintain property and equipment within acceptable quality standards.

- Monitoring and evaluating our performance in achieving targets and implementing regular internal

- Audits to achieve responsible self-regulation of the company's operations.

- Continuous improvement of the effectiveness of our integrated health, safety, environment and quality Administrative system.

Objectives of Al-Manar Engineering Company:

Zero defect inspection services

No deaths Zero LTI

No accidents of chemical spills

Road traffic accidents no more than one

Reduce and/or eliminate customer accounts
